**District Manager
Halton-Peel District, Central Region
Ontario Ministry of the Environment
4145 North Service Road, Suite 300
Burlington, ON L7I 6A3**

**Reference: Environmental Compliance Approval Number 9577-CGJQH3
2023 Annual Report for the Site.**

Dear District Manager:

As required under section 28 of the above referenced Environmental Compliance Approval, please find below the 2023 Annual Report for the Stericycle site located at 1575 Drew Road in Mississauga Ontario.

(1) A detailed monthly summary of the information required by Condition 27:

As illustrated in the table below, a total of **6,449,508** KG of waste was received at the site in 2023. All biomedical waste (312P) was transferred to the Stericycle Deerhurst location. Pharmaceutical waste (261) received at the site waste transferred to either the Stericycle Deerhurst location or Greenflow Environmental Services. Other waste classes received (148 & 264) were transferred to approved final disposal sites. The yearend balance of waste on December 31, 2023, at the Drew Road site was **65,404.5** KG.

- (2) A calculation of the average storage time for waste stored outdoors in trailers:**
 - a. The average storage time for waste stored outdoors in trailers is less than 12 hours. As the Deerhurst disposal site relies on the Drew Road location for waste to process, trailers are loaded and transferred within a 12 hour window.

- (3) A summary of the times when extended outdoor storage was required at the site including the reasons for each and any actions taken to resolve disruptions that may have resulted.**
 - a. Extended outdoor storage was not required during the operating period in 2023.

- (4) A summary of waste loads refused including the generator of the load, the licensed hauler of the load if the generator cannot be determined, the date of the refusal and reason for refusal of the load;**
 - a. There were no load refusals to report for the site in 2023.

- (5) Any environmental & operational problems, that are likely to negatively impact the environment encountered during the operation of the Site & during the facility inspections and any mitigative actions taken;**
 - a. There were no environmental or operational problems at the site in 2023 that were likely to negatively impact the environment.

- (6) A summary of complaints received and the actions taken to mitigate the issue associated with the complaint;**
 - a. There were no complaints received at the site during 2023.

- (7) Any recommendations to minimize environmental impacts from the operation of the Site and to improve Site operations and monitoring programs in this regard;**

Stericycle believes that the current monitoring program is sufficient and enables both Stericycle and the MECP to have a good understanding of the Site operations and to assess its compliance with the Certificate of Approval and all the relevant regulations.

However, Stericycle is very committed to looking for ways to improve its operations through better procedures, training, inspections and monitoring programs and will continue to do so.

I trust that this is the information required and that it meets with your approval. Should you have any questions or require additional information, please do not hesitate to contact me accordingly

Regards,

Dan Kokol

Operational ESH Manager
